EXPERIENCE

Vice Chairperson — IT Students' Association (ITSA), I²IT Pune

Jul 2025 – May 2026

- Led a team of 50 members managing tech events, workshops, and seminars
- Organized multiple events with 200+ student participants across the college

PROJECTS

NoteShare - Academic Notes Platform [\[Live\]](#) [\[GitHub\]](#)

Solo — 2026 – Present

- Built a production MERN-based academic note-sharing platform with **162+ registered users**, secure PDF viewing (watermark, blocked shortcuts), RBAC, admin dashboard, and Android app via Capacitor
- Achieved **17x throughput improvement** (30 → 512 req/sec) and **1.8M req/hr** capacity using L1 memory + L2 Redis caching, compound indexes, and auth caching — on **zero paid infrastructure**
- **Stack:** React, Vite, Tailwind, Node.js, Express, MongoDB, Redis, Cloudflare R2, JWT

Skin Cancer Detection — ML Classifier [\[GitHub\]](#)

2024

- Built a deep learning model for skin cancer classification with Grad-CAM visualization for explainability
- Deployed via FastAPI on Render; model identifies malignant vs benign lesions from dermoscopic images
- **Stack:** Python, TensorFlow/Keras, FastAPI, Grad-CAM, Render

AI Text-to-Image Generator [\[GitHub\]](#)

2024

- Built a responsive web app integrating an AI model via REST API for real-time image generation from text prompts
- **Stack:** React, REST API
